INFORMATION LETTER

DEAR COLLEAGUES,

We invite you to participate in the **XII International Online Conference “DIGITAL ECOSYSTEM OF ECONOMY”** held as part of the celebration of the 110th anniversary of the Southern Federal University. The conference will be held on **April 29th, 2025**, at the *Southern Federal University, Rostov-on-Don, M. Gorky st., 88* (and also on-line on *Microsoft Teams* platform).

The primary goal of the conference is to serve as a platform for the presentation and discussion of contemporary approaches and perspectives on the current state and future prospects of economic development in the context of emerging critical geopolitical and geo-economic dynamics. These dynamics include the imperative for the formation of a mobilization economy, the development of the capacity of knowledge-intensive industries, the substitution of imports, the enhancement of export potential, technological leadership, and the national security of Russia. These objectives are to be achieved through the application of intellectual tools, circular economy models, and end-to-end digital technologies. The conference will also feature a discussion of topical problems in the theory and practice of research on digital transformation processes in ecosystems of different economic natures and hierarchical levels in their adaptation to modernity.

Working languages: Russian, English

PARTICIPATION IN THE CONFERENCE IS FREE OF CHARGE.

Based on the results of the conference, it is planned to publish a Conference Proceedings with ISBN assignment (publishing of paper is optional). Participants who want to get published should submit a full paper. Submitted papers must follow instructions of the paper submission procedure and comply with the requirements for full paper submission. **The collection of papers will be included in the Russian Science Citation Index (RSCI).** The collection will be sent in electronic form **within three months** from the date of the conference. The conference will be held online with discussion sessions in the form of webinars.

DIRECTIONS OF WORK OF THE CONFERENCE:

- 1. Retrospective of economic research in the South of Russia: a time horizon of 110 years***
- 2. The present and future of industry digitalization: new mechanisms, trends and threats***
- 3. Concepts, tools and technologies of circular economy development***

Аннотация

Имеющиеся формы трудовой деятельности не укладываются в стандартные классификации. Новые формы трудовых взаимодействий появились уже во многих российских компаниях. В их числе – ИТ-аутсорсинг. В статье рассмотрены возможности применения ИТ-аутсорсинга в системе регулирования социально-трудовых отношений. Определены его преимущества и недостатки как новой формы трудовых взаимодействий.

Annotation

Existing forms of employment do not fit into standard classifications. New forms of labor interaction have already appeared in many Russian companies. This includes IT outsourcing. The article considers the possibilities of using IT outsourcing in the system of regulating social and labor relations. Its advantages and disadvantages as a new form of labor interaction are defined.

Ключевые слова: цифровизация, социально-трудовые отношения, ИТ-аутсорсинг, информационные технологии.

Keywords: digitalization, IT-outsourcing, information technology.

Text of the paper.
